PROFESSIONAL PROFILE

Full Stack Developer specialized in the Java / Spring Boot ecosystem, focusing on the design of high-performance backend architectures, IoT solution integration, and real-time data flow management. With a strong background in Agile methodologies and solid cross-functional skills (Frontend, DevOps), I am committed to delivering robust, scalable web applications centered on business needs.

TECHNICAL SKILLS

Backend: Java, Java JEE, Spring Boot, PHP, Laravel, Node.js, Express.js, JUnit, Unit Testing, TDD Testing
Frontend: Angular, React, Next, TypeScript, JavaScript, Tailwind, CSS.
Databases & ORMs: PostgreSQL, MySQL, MongoDB.
Tools, DevOps & Practices: Docker, CI/CD (GitHub Actions), Microservices, Apache Kafka, WebSocket, Postman, Git, GitHub.
Methodologies: Agile, Scrum (Sprint planning, Daily stand-ups), UML Modeling.

KEY PROJECTS

Detailed portfolio of over 45 hands-on projects available on my GitHub profile.

EcoSim 2.0 Full-Stack Developer
Tech Stack: Java, Spring Boot, Spring AI, Angular, PostgreSQL, Google Maps API, JUnit, Mockito, Docker, GitHub Actions
• Developed a comprehensive web mapping application designed to calculate travel costs and evaluate the environmental footprint of specific routes.
• Utilized Java and Spring AI on the backend to intelligently process route data and generate accurate ecological simulations.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Internship Nexas Solution, Casablanca
Tech Environment: Node.js, Express.js, Next.js, Docker, Git, GitHub, GitHub Actions, Postman June 2025 - August 2025
• **Web Development & Redesign:** Designed and developed the company website, integrating a transition to a dynamic architecture (headless CMS) to enable autonomous content management by non-technical users.
• **API Creation & Integration:** Developed custom backend functionalities, created dedicated APIs, and consumed data to ensure a smooth and optimized user experience.
• **E-commerce Extension Development:** Designed and implemented a dashboard-style management application to enrich and administer the functionalities of the online sales platform.

Java Full Stack Developer YouCode - Safi
Tech Environment: Java, Spring Boot, PHP, Laravel, Angular, React, Tailwind, Microservices, Git, GitHub September 2024 - April 2026
• **Collaborative Projects & Agile:** Delivered large-scale projects in an Agile/Scrum environment, including sprint planning, UML modeling, and active resolution of complex bugs.
• **Full Stack Development:** Designed dynamic UI/UX interfaces and created secure APIs integrating business logic, authentication management, and database integration.

EDUCATION

Full Stack Web Development YouCode (Simplon / UM6P), Safi
French State-recognized professional certification - Mohammed VI Polytechnic University 2024-2026
Bachelor's Degree in Physical Sciences Faculty of Sciences Semlalia Marrakech
2018-2022
